Last updated on September 15, 2020

Education

University of Florida
Gainesville, FL
Doctor of Philosophy in Biostatistics
Aug. 2020 - present

University of Florida
Gainesville, FL
Master of Science in Biostatistics
Aug. 2018 - May 2020
GPA: 4.00/4.00

Minzu University of China
Beijing, China
Bachelor of Science in Applied Statistics
Sept. 2013 - July 2017
GPA: 3.77/4.00

Professional Experience

Graduate Teaching Assistant
Gainesville, FL
Department of Biostatistics, University of Florida
Aug. 2020 - present

○ PHC 6790: Biostatistical Methods Using SAS

OPS Student Research Assistant
Gainesville, FL
Department of Community Health and Family Medicine,
May 2019 - Apr. 2020
University of Florida

○ Collaborated with investigators to identify problems and provided biostatistical consultation including analysis of data, interpretation of results, and preparation of reports.

Research Assistant
Beijing, China
Institute of Basic Research in Clinical Medicine,
July 2017 - June 2018
China Academy of Chinese Medical Sciences

○ Provided a variety of statistical analysis for projects using appropriate statistical and computing methodologies, and assisted in the interpretation and presentation of results.
○ Imported data from SQL, generated reproducible templates for adverse drug reaction weekly report, monthly report, and annual report by using R Markdown, and assisted to develop a platform that can automatically display these reports for different drugs.

RESEARCH EXPERIENCE	**Analysis of Alzheimer's Disease scRNAseq Data**	Gainesville, FL
	Supervisor: Dr. Susmita Datta	*Sept. 2019 - Apr. 2020*

- Used 2-dimensional t-SNE plots to visualize the single-cell RNA sequencing data.
- Preprocessed dataset, such as splitting, filtering, normalization, and clustering.
- Applied hurdle models specifically designed for sequencing-based single-cell gene expression data, including CRE and MAST, to detect differentially expressed genes between AD-pathology and no-pathology.
- Did network analysis and functional annotation for those differentially expressed genes.

	Risk Factors of ADR for a Traditional Chinese Medicine	Beijing, China
	Supervisor: Dr. Wei Yang	*Oct. 2016 - May 2017*

- Processed 30,888 data in advance, such as data cleaning, data standardization.
- Analyzed all data with descriptive statistics, examined the existence of significant differences between normal group and adverse drug reaction (ADR) group by applying various hypothesis testing methods, and reported the results by using R Markdown.
- Associated resampling methods, including RUS, ROS, and SMOTE, with classification algorithms, such as decision trees, AdaBoost, random forests, and LASSO, to improve the accuracy of classifiers for the minority class (i.e., ADR group).

	Evaluation of TCM Clinical Practice Guidelines	Beijing, China
	Supervisor: Dr. Wei Yang	*Aug. 2015 - Sept. 2016*

- Processed more than 20,000 items of Traditional Chinese Medicine (TCM) data in advance, including data cleaning, data standardization.
- Analyzed data in 76 TCM syndrome and 11 subjects with descriptive statistics, and reported the results by using R Markdown based on the idea of reproducible research.

Wu, D., Ellis, D., and Datta, S. (2020). COVID-19: Reduced Lung Function and Increased Psycho-emotional Stress. *Bioinformation*, 16(4), 293-296.

Wu, D., Yang, W., Tang, J., Li, X., Wang, X., Liu, H., and Yi, D. (2017). Application Research of Imbalanced Data Processing Methods on Prediction of Adverse Reactions of Traditional Chinese Medicine. *World Science and Technology/Modernization of Traditional Chinese Medicine and Materia Medica*, 19(9), 1455-1461.

AWARDS AND HONORS

Outstanding Master Graduate	*Department of Biostatistics, University of Florida*	2020
Certificate of Excellence	*International Center, University of Florida*	2019
First-class Scholarship (TOP 3%)	*Minzu University of China*	2017
Honorable Mention	*Interdisciplinary Contest in Modeling*	2016
First Prize in Beijing Region	*National Mathematical Modeling Contest*	2016
Wu Xianhong Scholarship	*College of Science, Minzu University of China*	2015, 2016

SKILLS

R, SAS, Python, LaTeX, C/C++, WinBUGS, MySQL, Photoshop, Illustrator, MS Office

CERTIFICATES
- SAS Certified Professional: Advanced Programming Using SAS 9.4 (2020)
- SAS Certified Specialist: Base Programming Using SAS 9.4 (2019)

- Applied Data Science with Python Specialization by UMich on Coursera (2020)
- Genomic Data Science Specialization by JHU on Coursera (2020)
- Data Science Specialization by JHU on Coursera (2019)
